

Dr. Peter C. Taylor P.E. (IL)

Peter Taylor is the Director of the National Concrete Pavement Technology Center, and a Research Professor in the Dept of Civil, Construction and Environmental Engineering at Iowa State University.

He spends time helping agencies and contractors implement best practices in concrete pavement design, construction and maintenance. His research is focused on developing sustainable mixtures that are engineered to meet the requirements of the environment that will be used in, and developing test methods to prove that a mixture on site is going to survive.

He is a Professional Engineer, registered in Illinois and active in a number of professional societies.
