

Mr. Cook has more than 45 years of construction and project management and owner's representative. His areas of expertise include: design and construction project management; quality control; cost estimating; RFIs; constructability reviews; construction claims analysis; scheduling development and review; supervision and coordination of field projects; contract negotiations; and subcontractor management. Mr. Cook utilizes management parameters, documentation controls, and effective communication foster continuity for a project team in terms of accessing information, updating progress, and resolving issues on the site. This allows all parties to make informed decisions. His use of scheduling software enables him to devise scenarios within project schedules to provide troubleshooting and alternative approaches for his project teams.

Education

AS, Architectural Technology, Williamsport Community College (now Penn College), 1976
