

**Assistant Director of Aviation
The City of Corpus Christi**

Description: The City of Corpus Christi is seeking an Assistant Director of Aviation to coordinate Air Service Development, which is planning to grow commercial air services at the Corpus Christi International Airport (CRP). The purpose of this position is to grow air service, reduce enplanement leakage, address the need for more demand for new and expanded air services and any other projects that may increase air service at the Corpus Christi International Airport.

The Assistant Director serves in a senior leadership role to support the department Director through long term strategic planning and must display sound judgement in department programs and services.

Minimum Requirements:

- Bachelor's Degree from an accredited college or university with major coursework in Aviation Management, Public or Business Administration, or related field
- Seven years of progressively responsible experience in aviation management
- Certified Member of the American Association of Airport Executives (AAAE) or IAP designation from Airports Council International (ACI) preferred

Salary/Benefits: The salary range for the Assistant Director of Aviation is \$100,000 - \$150,000 with an attractive benefits package.

Submission Deadline: December 22, 2019
