

Katie Servis is an accomplished leader in the aviation industry. Having been in the industry for more than three decades, Katie is known for her exemplary collaboration skills and her passion for transparent communication among stakeholders and team members. As the former manager of Cape Cod Gateway Airport, Katie was instrumental in financing and managing airport resources, increasing the airport's revenue by 106% in six years, adding over \$2 million annually in land lease revenues, leveraging close to \$60 million in federal and state funding for airport improvement projects, and \$2 million in grant funding for green technology initiatives. Katie also was successful in introducing American Airlines to the commercial flight offerings alongside current operators Cape Air and JetBlue. Katie has also been instrumental in implementing green initiatives with the development of a 20-acre solar array at Cape Cod Gateway Airport, multiple electric vehicle charging stations and started the design of the first ever Smart Microgrid at an airport in Massachusetts. She has an eye for detail and her sights set on success.

Katie is a graduate of Bridgewater State University with a BS, Aeronautical Science, Airport Management (1995) and completion of Suffolk University's, Massachusetts Municipal Association (MMA) Local Government Leadership & Management Certificate (2018). Katie also holds her Private Pilot's License (1991). At Hoyle Tanner, she has taken up the skills she has cultivated and applies them to clients' needs as they manage their airport facilities.
