

## Biographical Summary

***Laurence “Larry” Bauman, PE, CM  
Vice President – Aviation Group  
Johnson, Mirmiran & Thompson, Inc. (JMT)***

Larry’s aviation career spans 40 years in both the public and private sectors. On the public side, Larry served as an aviation planning manager for the Florida DOT in the 1980s and as the facility planning manager at DFW International Airport in the late 1990s and early 2000s. During his time at DFW, he managed their Airport Development Plan update which resulted in a \$2.6 billion construction program and he also worked on the planning and programming for DFW’s international Terminal D. His work in the private sector includes providing airport planning, design, and construction phase services for engineering firms in Florida, Texas, Pennsylvania, and Maryland. Larry also served on the Board of Directors for the Airport Consultants Council in the 1990s. He is a vice president in the Aviation Group of Johnson, Mirmiran & Thompson (JMT) – a Maryland based full-service A&E firm – and he serves several airports in the Mid-Atlantic and Midwest. Larry earned his civil engineering degree from Georgia Tech and he holds professional engineering licenses in Florida and Maryland. In 2003 he earned his Certified Manager designation from AAEE.
